Compressed air at your service

Join the ABAC advantage

Since 1980, ABAC offers the right mix of flexibility and experience for the industrial, professional and DIY compressed air markets. From state-of-the-art production facilities straight to your business via thousands of distributors in more than 100 countries worldwide, ABAC provides you with plug & play air solutions with a quality label. We deliver trouble free workmates, both piston as well as screw compressors, that are always available and ready to use.

Join thousands of convinced customers operating millions of ABAC compressors worldwide.

You can count on quality products designed with the customer in mind whenever you choose an ABAC piston compressor:

- plug and play air solutions
- always available and ready to use
- first class usability
- high-end durability and performance

The ABAC LINE series

Why ABAC LINE?	6
Oilless direct driven compressors	8
Lubricated direct driven compressors	10
One stage compressors	12

Legend

Applications

Washing	Nailing & stapling	Orbital sanding
Professional washing	Airbrushing	Professional orbital sanding
Air/water spraying	Impact wrenching	Rotorbital sanding
Air/water professional spraying	Light hammering	Rotorbital polishing
Inflating	Hammering	Hobby painting
Blowing	Screwing	Painting
Professional blowing	Professional screwing	Professional gravity painting

Weight in kg

ABAC LINE Series

For easy reliability combined with standard quality comfort.

A match for all needs, no matter if direct drive (oilless and with oil) or one stage belt drive.

Key Benefits:

- Light and compact
- Easy to carry or move
- Simple and straightforward use
- Reliable operation

SILENT Series
improved noise reduction

LINE Series

PRO Series

maximum comfort and user friendliness

Direct Driven

Occasional (plus) use
1,5 - 3 hp
130 - 310 l/min

One Stage

Intermittent use
2 - 4 hp
250 - 490 l/min

Two Stage

Frequent use
4 - 20 hp
500 - 2800 l/min

Frequency of use & Type of application

Comfort level

ABAC LINE series: range benefits

Direct drive

One stage belt drive

Reliable operation

Easy to move around

Light and stable

User-friendliness through design

Innovative design

Solid, stable and easy to operate

User-friendly features

Reliable performance and dual operation

O15 Range

Oilless direct driven compressors

The O15 range offers great solutions for performing smaller compressed air applications in and around the house.

Blowing dust away, inflating bicycle tyres and handyman applications like nailing or stapling can all be done easily with this range of small, light and compact compressors.

Applications

User-friendly

Simple connection

Maneuverability

Light and easy to carry
Only 4.5kgs!

Safety

No oil spillage

Comfort

Small vertical footprint for stocking

COMPY O15

1,5 hp, oilless

START O15

1,5 hp, 6 litre, oilless

POLE POSITION O15

1,5 hp, 24 litre, oilless

Strong and easy handling

Simple and user-friendly on/off switch

Big pressure regulator

Storage toolbox

Model	Partnumber	L	l/min	CFM	HP	kW	rpm	Volt	Bar	dB(A)	L x W xH (mm)	Kg
COMPY O15	4116023457	0	180	6,3	1,5	1,1	3400	230/1/50	8	97	280 x 180 x 347	4,5

POLE POSITION O15	4116023459	24	180	6,3	1,5	1,1	3400	230/1/50	8	97	250 x 565 x 420	20

L20 Range Oil lubricated direct driven compressors

Performing small tasks has never been this simple and easy using the L20 range of compressors.

Great technology and simple operation suitable for a large range of applications, from nailing over stapling, to blowing and inflating.

Applications

Reliability

Smart design guaranteeing good cooling flow over pump

User-friendliness

Simple push on/off button and easy pressure setting

Stability

Large capacity vessel

Flexibility

Strong wheels to move around easily

MONTECARLO L20
2 hp, 50 litre

START L20
2 hp, 6 litre

POLE POSITION L20
2 hp, 24 litre

Simple carrying due to ergonomic handle

Suction cup feet for stable operation

User-friendly and clear gauges

Large and easy to operate drain valve

Model	Partnumber	L	l/min	CFM	HP	kW	rpm	Volt	Bar	dB(A)	L x W xH (mm)	Kg

A29 Range One stage belt driven compressors

Great belt driven technology developed for simple but reliable operation.

Your workshop deserves professional equipment. These compressors are suitable for many short to more demanding tasks ranging from ratcheting to small hammering, and from painting to wrenching.

Applications

Innovative design

Belt guard improving air cooling

Reliability

Cast iron cylinder

Performance

Slow speed pump design reduces temperature

User-friendliness

Easy oil check and refilling

A29 90 CM2 2 hp, 90 litre

A29 50 CM2 2 hp, 50 litre

A29B 150 CM3 3 hp, 150 litre

Stable and strong balance

Large and easy to operate drain valve

Double outlet for dual operation

A39 Range

One stage belt driven compressors

The A39 takes you one step further, with more power and more air.

If you are performing tasks which require more air delivery, the A39 compressors are a good match. They are user-friendly and simple to operate, and amongst other tasks, they can be used for impact wrenching, and more intensive hammering.

Applications

Innovative design

Belt guard improving air cooling

Reliability

Cast iron cylinder

Performance

Slow speed pump design reduces temperatures

User-friendliness

Easy oil check and refilling

A39 90 CM3
3 hp, 90 litre

Unique innovative belt guard design to improve cooling

Large and stable operation

Full handle for extra solidity

A39 270 CM3
3 hp, 270 litre

A39 150 CT3
3 hp, 150 litre

The world of ABAC

Original parts.
Your quality assurance.

Your Authorized Distributor

0100966660

The 'original part' identification confirms that these components passed our strict test criteria. All parts are designed to match the compressor and are approved for use on the specified compressor. They have been thoroughly tested to obtain the highest level of protection, extending the compressors' lifetime and keeping the cost of ownership to an absolute minimum. No compromises are made on reliability. The use of 'original part' certified quality components helps ensure reliable operation and will not impact the validity of your warranty, unlike other parts. Look for your quality assurance.
